

PIYUSH MATHPAL

B.Tech CSE Student | Software Development & Internship Candidate

7300596199 | piyushmathpal89@gmail.com | LinkedIn: piyush-mathpal-587041379 | GitHub: Piyush-Mathpal

PROFILE

Second-year B.Tech Computer Science & Engineering student with a strong foundation in programming, data structures and web development. Experienced in building and deploying practical web projects and actively developing problem-solving and software development skills. Seeking internship opportunities to gain industry experience and contribute to real-world projects.

EDUCATION

B.Tech in Computer Science & Engineering | Graphic Era Hill University, Haldwani | 2025–2029

Semester 1 SGPA: 8.19 | Semester 2 SGPA: 8.48

TECHNICAL SKILLS

Programming Languages: C, C++, Python, Java (learning)

Core Computer Science: Data Structures & Algorithms, Object-Oriented Programming, Problem Solving

Web Development: HTML, CSS, JavaScript, Responsive Web Design

Development Tools: Git, GitHub, VS Code

Backend & APIs: JavaScript, REST APIs, JSON, Basic Backend Development

PROJECTS

E-Herbal Garden

- Developed an interactive herbal-plant website with plant search, information pages, 3D plant models and an integrated chatbot. Used web technologies, JSON-based data and API/backend integration; deployed the project online.

Weather Web Applications

- Built multiple weather web applications that provide weather information through a clean, responsive interface and API integration. Published projects on GitHub.

Web Wizard – Webathon Project

- Developed an interactive website for a college webathon, focusing on responsive design, visual presentation and user-friendly web interactions.

ACHIEVEMENTS

Graphathon 3.0 Hackathon: Participated and qualified for the next stage, earning eligibility to proceed and participate in the hackathon.

Coding & Development: Maintains an active GitHub portfolio with 15 public repositories and regularly practices programming and DSA.
